Set Up: Your LOS Administrator must first configure your LOS to interface with Radian.

1

Requesting a Rate Quote

Access the **Mortgage Data** menu. Click the ellipse (…) to the right of the **Mortgage Insurance** field to open the MI Request form.

2

Edit MI Plan

Your administrator can default the most common MI product variables including your coverage percentage defaults.

Click the **Name** field to modify the MI Program selected or select another program by clicking the ellipse (...) to the right of the Name field.

Renewal Yr 2-10:	0.76%
Renewal Yr 11-Term:	0.2%

This initial premium rate quote ("Quote") is only an estimate and does not constitute an application for or offer of insurance. Radian will honor this Quote for 90 days based on the data you provided. This Quote is for Full Documentation loans only. If you did not provide an Automated Underwriting System (AUS) response, this quote is based on an assumed AUS Approve/Eligible response. If you did not provide a credit score, this Quote is based on non-traditional credit sources. Actual rates may vary if any changes to the data are made. Additional taxes, assessments, or fees may be required. By using this rate calculator, you agree that Radian is not responsible for, and shall have no liability with respect to, any discrepancy between this Quote and the actual premium rate quote charged after final review of an application. If you requested a Lender Paid Mortgage Insurance (LPMI) comparison through your loan origination system (LOS) or pricing engine, the Five Year Cost Comparison was calculated adding the following percentages to the base interest rate: .625% (97% - 95.01% LTV), .50% (95% - 90.01% LTV), .375% (90% - 85.01% LTV) or .25% (≤85% LTV). Housing costs used in the payment comparison are based on the estimated added interest rate for LPMI stated above. Please consult your rate sheet for actual interest rates.
